

Coaches and Club Registrars

There is a new STSC Skills Sheet posted to the AD Web Site on the "Coaches" page. This skills sheet can replace the STSC in-water skills session done with an ARC instructor and therefore can replace the ARC STSC certification itself if accompanied by the STSC Online Content Only certification. If the coach cannot find an ARC instructor to provide the full STSC course, an instructor from one of the agencies listed on the Skills Sheet can work with the coach and sign the form. The coach must complete the STSC Online Content Only course, print the certificate and present it at the time of the skills demonstration. This new procedure was approved by the Operational Risk Committee at convention and can be used starting immediately by coaches who need to renew STSC and do not have an acceptable lifeguard certification.

The coach and the instructor are required to sign the form and falsification of this document may constitute a Code of Conduct violation.

A copy of the STSC Online Content Only certification and this signed Skills Sheet should be sent to the LSC Registrar; together, they complete the STSC requirement. The STSC expiration date will always be the one on the STSC Online certification because this one will always expire first.
