ADIRONDACK TEAMS ENTRIES TO SWIM MEETS

When entering athletes in any Adirondack Meet, Adirondack voted (fall 2009 AD meeting of HOD) to allow NT or no time entries, in meets which do not require proof of time to enter.

Problems have occurred in the past, with NT entries, which have prolonged meets beyond the acceptable session time limits. Meet manager now does allow for estimates when NT entries are included. AD cannot be responsible for actual session times, when NT entries are allowed. All meets, which do not require a proof of time for entry, will allow NT entries, by default, unless stated in the meet announcement by the host team.

ALL Meets which require proof of time, will NOT Accept NT Entries. These include all AD Championship Meets and other AD meets containing cut times.

Clubs may also choose to not allow NT entries in their meets. If NT entries are NOT to be accepted in a meet which would otherwise allow them, it must be plainly stated in the meet announcement.
